The Hatfield-McCoy feud is not yet ended.

MAYSVILLE, KY., July 14.-Alexander

Messer, one of the Hatfield faction in the

famous Hatfield-McCoy feud, is now in jail

on a charge of murder. The crime which

Messer committed was due to a mistake made by mountain officers in arresting a

boy of 13 for a deed done by a boy of 9.

The part which this boy-Budd McCoy-took

in the fend has never been told in print.

Budd McCoy was 9 years old at the time

to which reference is made in this story, and

his home was on the Blackberry branch of

Pond creek, in Pike county, Ky. It ought

to be said now that this is a true story, for

otherwise the reader might think that the

writer, in an attempt to be sensational, had

drawn the long bow. The McCoy family

was a large one. Budd had eight brothers

and six sisters, all of whom were older than he, some of them being married and having children quite as old as their Uncle Budd. Besides these brothers and sisters, Budd

had so many cousins living in Pike county that he couldn't for the life of him remem-

ber half their names, though he generally saw them all from two to three times a year, when they all went to the outdoor church gatherings, which, in the mountains of Kentucky and West Virginia, are called

ANOTHER BIG FAMILY.

a family that consisted of no end of brothers and sisters, with cousins, also, just like the McCoys, whose name was Hatfield. An-

derson Hatfield was the name of the father of this family, and Randolph McCoy was the father of Budd. Between the McCoys

and the Hatfields there was a deadly feud.

As they say down there, the two families

were at war, and that means that whenever

three or four McCoys caught a Hatfield out

by himself, they would hide in the brush on the mountain side and shoot him in the

back, while the Hatfields were just as anxious to kill McCoys, and just as cowardly

in their way of doing it.
In 1882, the year that Budd was 9 years

old, but one man had been actually killed in this way. His name was Bill Stayton,

and he was one of the cousins of the Hat-fields. He had been waylaid by two of Budd's cousins and shot to death because he had once thrown a stone at Budd's father and knocked him down, and thus openly arrayed himself with the Hatfields. Little Budd knew all about the feud from

the time it began, when his father sued one

of the Hatfields for the value of two long-nosed hogs and got beaten. He had listened to his father and older brothers as they dis-

cussed the chances of meeting the Hatfields and shooting them and getting shot by

them, and the one thing that worried him

most was that his father said he was too

young yet to learn to shoot, and so he must

wait an awful time, it seemed to him-two

whole years—before he could hope to kill a Hatfield. However, he got a chance at one

of them quicker than he anticipated, and the revenge taken for the blood that he

turned out on election day to help Mr. Staf-ford get elected, but the Hatfields, who lived

in West Virginia and could not, of course, vote in Kentucky, also came over to the

polls to work for the same end. Little Budd and his next elder brother, Randelph, Jr., a

was the two men fighting. Immediately there was a rush made by the men about the

polls, and the fighters were separated and arrested by two constables.

A BITTER STRUGGLE.

But the fight was destined to go on. A McCoy had hit a Hatfield, and all the ill feeling that had existed between the families was roused once more, and the truce which Stafford had brought about was for-

gotten. Deacon Ellison Hatfield, a brother of Anderson Hatfield, chief of the Hatfield

faction, was the one to pick up the fight for his side. The more he talked the angrier

he got, and so, too, did Talbot, until finally the constable who was holding Talbot saw that the Deacon was going to cut Talbot anyhow, and so concluded to get out of the

way and let the two men fight it out.

The instant he was released, Talbot sprang

back two steps, and with a quick motion drew a pocketknife and opened the blade. Then both men stooped a bit and jumped for each other with murder in their hearts, while the ring of eager mountaineers about

them swayed to and fro as each one strove to see every move made. Talbot, who was the younger and quicker, drove his knife into the Deacon's left side, missing a fatal

wound only because the point of the knife struck a rib and glanced off. The Deacon's knife descended on Talbot's head, slashing through the soft black but and clear across

the top of his head, laying open the scalp to the skull for over five inches.

At last the two separated and then closed in with a bound. Neither uttered a word or cry, although the Deacon's knife closed

With the Case. An Indiana farmer was suddenly attacked

Budd threw his knife into the creek and slipped away unseen.

At the same moment Randolph McCoy, Jr., the boy of 13, came running from a spring some hundred yards below, where he had been playing with a companion. He had heard the shooting and arrived just in time to see his brother Farmer arrested and brought back, and Talbot also arrested. Then the Hatfield who had seen Budd stabbing the Deacon's legs pointed out Randolph to the officers and accused him of the crime of which little Budd was really guilty. It was an awful mistake, but a natural one. People could not be expected to distinguish between two small brothers in a family of 15. with paralysis while working in his garden. All his senses save that of touch seem to be destroyed. For 30 days he has partaken of neither food or water, although he has been walking a little each day. The fifteenth day of his fast there happened to be a little water in the basin which stood on the stand, and during one of his trips that day he picked up the basin and made an effort to drink. This was the first substance that had passed his lips since the beginning of the fast. Always after this as he would rise to take his walks some of the family ran out of the house and placed a cup of fresh water on the stand. In the neighborhood in which he lives Mr. Marvel has always been considered an exemplary citizen. The early years of his life from 7 until about 18 he followed a sea-faring life.

Quiting the sea he took up the life of a farmer, and has since followed that occupation. He is about six feet in height and strong and muscular, though of a slender build. His hair is whitened now, and his face is beardless. He is of a sanguine, bilious temperament. The old man is a widower and has several grown children, all of whom are married. County Cave-A Faded Missive in a Queer Disease Which Suddenly At-Bottle-A Sequel to the Story Found at Richmond. SPECIAL TELEGRAM TO THE DISPATCH.1

READING, July 14 .- Editor Kauffman, of the Chester Valley Union, published at Coatesville, Chester county, and W. W. and upon opening it found inside a

signed Arthur Carrington, of Richmond, Va.

According to the letter he was with Washington's army at Valley Forge, and while out on a forsging expedition near French creek was pursued by a British force. He took refuge in the cave, and while there the entrance was blocked by a large rock, which fell from above. The writer says he spent many agonizing days in the cave, when, believing that he would perish, he decided to write the missive. The letter is addressed to Virginia Randolph, his betrothed, and is very pathetic in tone, referring to his deep love for her, and expressing the hope that she may be informed as to his tate. Mr. Potts says that he wrote to a friend in Richmond who made inquiry among the old families of that city.

This friend copied the inscription of a tombstone in one of the private family burial grounds of Richmond. It is as follows: "Died of broken heart on the first of March, 1780, Virginia Randolph, aged 21 years and 9 days. Faithful unto death." Mr. Potts says that the crumbling skeleton will be removed to Richmond. He claims that he has the letter, and Editor Kauffman gives it his strong indorsement. The quarry workmen also substantiate it.

POISONED WATER.

One of the leading surgeous in the Army, made the following characteristic remark "Water kills more soldiers than bullets." His meaning was, that soldiers who drank impure water, died by disease in greater numbers than those killed by bullets. The surgeon was right Impure water, especially at this season, is a ter-rible cause of sickness and death. But the pub-lic say, what shall we do? There is but one senlic say, what shall we do? There is but one sensible thing to do, and that is to purify the water by mixing it with something that destroys all poison or disease breeding germs, and nothing does this like pure whiskey. But it may be asked, where can I obtain pure whiskey? Professor Henry A. Mott says, "the purity of Duffy's Pure Malt Whiskey is absolute, and should commend it to the highest public favor." There are hundreds of families that are drinking water constantly, and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each glass they drink. It is a simple and a sure preventive of Summer diseases and germ poisons, and is indorsed by the best people in the land.

Mr. H. Robertson, a native of Scotland, but who has been a resident of this country for several years, has been a victim of kidney disease with the following symptoms: He had a heavy dragging pain across, the small of his back, extending from one side to the other, and a bloated dropsical condition of the bowels, high colored urine, and he noticed that sometimes it contained a reddish, brick-colored sediment, and at other times the sediment was of a lightish color. He noticed that he felt very tired in the morning, and as he gradually grew weaker, his stomach became affected. His appetite became poor, and he was constantly annoyed with sour eructations of gas from his stomach after eating, and an account of the kidneys not performing their function properly, his blood became charged with rheumatic poison, so that he had much pain about his shoulders and different parts of his body. As he became more emaciated he began to cough, and he felt much tightness and weight across his lungs. In speaking of the matter one day, he said:

"I doctored with the best doctors I could hear of, but was fast getting worse. I became melancholy and thought I could not live. Finally I began treatment with the physicians of the Polypathic Medical Institute, who are specialists for chronic diseases, and although confined to the bed when I commenced their treatment, my improvement was very rapid, and I have been entirely cured by these physicians, and I gladly sign my name.

You know them. If you knew of the \$5, \$4 ones we're now selling for \$3, not another word would we have to say. Bear that in mind this week, and see our stock.

WHERE you going for a week, month or so during the high temperature? Lakes, ocean, mountains, farm? Maybe we can give some good points. Know we can about the things you ought to take along. In their order: Flannel Shirts, Blazers, plenty of cool Underclothing and Handkerchiefs, Scarfs, Sashes, Belts, etc. Got 'em all, and more, too There's a pretty sprightliness about this stock of Furnishing Goods, and the prices are not mean-they're low.

ANENT our Children's stock of Clothing. Mothers, this department gets lots of our attention. This week's specialties are: Lot of Suits for Boys 4 to 14 years, \$3; market value \$5. Got more than we need, and you'll profit by our being overstocked. 75c Boys' fine Knee Pants; you wouldn't object, ordinarily, to pay \$1 25 for them; that's (1 25) the town price for them.

CHILDREN'S SHIRT WAISTS

That's all we need to write. The mothers know we've always got the largest lot and lowest prices.
